

SIDDHESH DABHOLKAR

<https://iamsiddhesh.vercel.app> · siddheshdabholkar942@gmail.com · 9370882805

Summary

Full stack developer with experience building fast, scalable, and interactive applications across domains like analytics, SEO, and AI interfaces. Currently focused on transitioning into applied AI, with hands-on experience integrating LLMs, building RAG systems, and optimizing AI-driven user experiences. I enjoy working on impactful products, solving complex technical challenges, and continuously pushing the boundaries of what tech can do.

Technologies

Typescript | Javascript | Turso | Mongodb | Supabase | pineconeDB | HTML | CSS | ReactJs | NextJs | Fastify | ExpressJS | NodeJS | Redis | React Native | Python | FastApi | AWS S3 | Github Actions | AWS EC2 | AWS ECS | AWS ECR | AWS EC2 | Kafka | Nestjs

Experience

DroolMonkey

Backend developer

Porvorim, India (Remote)

Dec 2025 - (till date)

- Implemented distributed caching with Redis, reducing database load and improving response times
- Built and deployed CI/CD pipelines using GitHub Actions and Amazon Elastic Container Registry, enabling automated builds, containerized deployments, and rollback strategies
- Designed an image processing pipeline handling multiple formats (including iOS-specific HEIC/HEIF and standard JPEG/PNG/WebP), with automatic conversion and compression for optimized delivery
- Reduced image payload sizes via compression and format standardization, improving load times and bandwidth efficiency across devices
- Containerized backend services with Docker and streamlined deployment workflows for scalable cloud environments
- Collaborated with frontend teams to optimize API contracts and media delivery workflows
- Designed and optimized backend services using NestJS, improving API performance and maintainability

Innerloop Streaming

Full stack developer

Bengaluru, India (Remote)

Aug 2023 - Aug 2025

- Worked on Added caching for the dynamically generated video/image previews on the client
- Added caching for the repeated api calls using redis
- Added features in the player like interactions, shoppable experience, Ai chat and QNA
- Implemented client-side routing, lazy loading, and dynamic imports to reduce JavaScript bundle size and improve performance.
- Built interactive and real-time analytics dashboards to visualize user and content performance metrics.
- Collaborated with backend developers and designers to deliver seamless API integration and pixel-perfect UI based on Figma designs.

Cloudrocks Technologies

Full stack developer Intern

Bengaluru, India (Remote)

April 2022 - Aug 2023

- Optimized and revamped the showcase experience for better performance, responsiveness, and SEO discoverability.
- Streamlined the team management module by refactoring code, improving data handling, and enhancing UI workflows.
- Wrote and optimized complex queries using Google BigQuery to fetch large-scale analytics data with minimal latency.

Kalpas Innovations

React developer Intern

Hubli, India (Remote)

Aug 2021 - Sep 2021

- Improved experience of landing page by compressing assets and remove buggy code
- Converted legacy react code to the reusable function hooks code
- Implemented client-side routing, lazy loading, and dynamic imports to reduce JavaScript bundle size and improve performance.

Projects	
LawyrHub LawyrHub is an AI-powered legal assistant platform where users can ask legal queries.The system uses a robust retrieval-augmented generation setup to fetch the most relevant legal provisions and respond in plain language. Typescript Langchain PineconeDB Mongoddb Tailwindcss Nextjs Gemeni	2025
Personal Portfolio A personal portfolio that showcases my projects, experience, and education, along with an integrated chatbot that can answer visitor queries based on the content of my work and background. Typescript Supabase Tailwindcss Groq	2025
React media hooks Hooks for camera,microphone and screen-recorder Typescript Reactjs	2022
Crypto App React native app which shows the current price of the crypto coins React Native Expo React-Native-Reanimated React-Native-Gesture-Handler	2022
Twitter Clone Twitter clone (X) Reactjs GraphQL Apollo-server Apollo-client mongoddb express.js cloudinary	2021

Education	
Goa College Of Engineering (2019-23) • Completed Bachelor’s of Engineering in Information Technology	Goa,India
Harmal Panchakroshi Higher Secondary (2017-19) • Completed Higher secondary education	Goa,India
